#### UNITED NATIONS ACTIVITY REPORT

This panel presentation, titled “Women and Labor: A Nutritional Perspective,” promoted women’s health related to nutrition.

The event was conducted 20 March 2017 at the United Nations Headquarters, New York City, NY, United States.

#### Report Submitted by Constance Sobon Sensor, STTI United Nations Liaison

This was a panel presentation that included many perspectives from the [World Health Organization](#) (WHO), the [United Nations Children's Fund](#), the [World Bank](#), and delegates from member states (Argentina, Indonesia, Sri Lanka, and Canada). Issues arose from a social, economic, political, and environmental and cultural point of view. I had the opportunity for a short discussion with the Executive Director of the WHO.
